Background: The Delaware & Lehigh National Heritage Corridor (DLNHC) preserves the historic pathway that carried anthracite coal and iron from Wilkes-Barre to Bristol, PA. The organization was established by Congress in 1988 to celebrate our nationally significant story centered on the transport of anthracite coal from the mines of Luzerne and Carbon County to the markets in the Lehigh Valley and Philadelphia (via Bucks County). The D&L Trail is a multi-use trail spanning over 165 miles from the mountains of northeast Pennsylvania, along rivers and through the Lehigh Valley and Bucks County. In 2017, DLNHC merged with the National Canal Museum to incorporate the archives, museum, canal boat and educational programs into preservation and

education efforts. Today, we are an AAM-accredited Smithsonian Affiliate and an organization with the ability to connect people to unique experiences in nature and the environment, community and economic impact, health and recreation, history, preservation, and education.
